(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner contacted counsel and asked for clarification of claim 27. It was unclear if the linking group is asymmetric or if the entire other portion of the compound on either side of the linking group is constructed so that the compound is asymmetric. Counsel stated that the latter option was intended. The Examiner and Counsel also discussed the previously applied section 112 rejection but no agreements were reached.
